Subject: Conditional Use Application No. 851-19-0000105-PLNG

Good afternoon:

Reading through the *Jacobs Jupiter Project Acoustical Evaluation* submitted on September 4, 2019 by Mr. Mark Bastasch on behalf of the Applicant in the above referenced matter, it appears the Applicant has finally identified the machinery it intends to install to conduct its proposed drilling from the site involved. This includes a Vermeer Navigator D330x500 Drill Rig. The link below displays a YouTube video (04:46 in duration) posted by the Vermeer Corporation showing this drill rig in action.

I respectfully request this email message, the link provided herein and the video content posted on YouTube at said link be included in the record for the Commission's review of this Application.
